

Parent Survey on Class Placement

Dear 157C Families,

The planning process for the 2019-2020 school year has begun! This is a lengthy process, and one we take very seriously. There are many factors we consider as we develop our schedule and class lists. We work with your child's current teachers as part of our comprehensive process and invite you to provide your input as well.

We welcome you to share your perspective on your child's placement for the coming school year. In the space below, please communicate your child's learning style along with his or her educational and social emotional needs.

Providing this information about your child is optional. If you choose to share your input, please utilize this form, as it is our official way to collect this important information from you. Please do not contact your child's teacher or another staff member regarding placement requests for next school year.

Please limit your comments to the type of classroom environment or teaching style that is most beneficial for your child. Please do not request a specific teacher by name but limit your comments to a description of your child's academic and social-emotional needs. If you choose to share your input, please return your form to your child's teacher by April 30, 2019.

We look forward to your partnership in planning a successful 2019-2020 school year!

Sincerely,

Doug Wernet

Rachel Newcomb
